Mirpur -11, Rd No 3, Dhaka 1216, Dhaka, Bangladesh

- Developed **5+ comprehensive ERP-based softwares** using **React.js, Next.js & TypeScript** in collaboration with Django backend developers.
- Deployed software solutions across **500+ institutions**, improving operational efficiency by **40%**.
- Delivered **300+ fully responsive School & Madrasha websites** tailored for institutional needs.
- Provided software training and onboarding sessions for **100+ institute staff** members.
- Ensured ongoing support and system upgrades, reducing downtime by **30%**.

MERN Stack Developer, Eclipse Intellitech Limited **Sep 2022 – Feb 2023**
House 41, Block E, Road-06, Banasree, Dhaka, Bangladesh

- Built POS software with **20+ robust features** using **React.js and Redux**.
- Developed **3+ scalable e-commerce platforms** ensuring performance and reliability.
- Collaborated with Laravel backend developers to integrate APIs effectively.
- Delivered dynamic, high-quality features, reducing development turnaround time by **25%**.
- Worked closely with designers to ensure seamless, intuitive UI/UX.

Frontend Developer, Freelance **Feb 2021 – Aug 2022**
Gazipur, Dhaka, Bangladesh

- Developed **mobile app frontends** for local and foreign clients with clean, user-friendly screens.
- Built **responsive website frontends** tailored to each client's business and design requirements.
- Worked directly with **local and international clients** to understand needs and deliver on time.
- Collaborated with designers and backend developers to turn layouts into working interfaces.

PROJECTS

LA'AM ERP (Laam, Multi-tenant ERP Software) **Live**

- Built a multi-tenant SaaS ERP for **e-commerce businesses**, with a separate workspace and subdomain for each organization.
- Developed order-to-delivery operations covering **WooCommerce** order intake, courier booking and tracking with Pathao and Carrybee, a COD payment ledger, and SMS notifications.
- Built inventory, accounting, and CRM modules, including stock and purchases, income and expenses, leads, deals, and customer management.
- Implemented HR with **biometric attendance** through ZKTeco devices, leave, roster, and payroll, plus role-based access control across the web app.

Technologies : Next.js, TypeScript, NestJS, Prisma, PostgreSQL, Zod, JWT, Tailwind CSS, Nx

Qawmi Talim (Freelance Hub BD Ltd, ERP Software) **Confidential**

- Developed a ERP-based Madrasha Management Software with SaaS capabilities serving **350+ institutes**.
- Built complete Student & Staff management with admission, attendance, payroll, and results for **10+ modules**.
- Integrated Fees & Accounts system with online payment, billing, and financial reporting features.
- Implemented Role-based Security & a Portal supporting student, parent, and teacher access across **web & mobile**.

Technologies : React.js, Redux, Tailwindcss, JavaScript, Django, AWS, MySQL

Rajuk Uttara Model College (Freelance Hub BD Ltd, ERP Software) **Confidential**

- Developed a full ERP system for college managing **8,000+ students** and **500+ staff profiles**.
- Built Academic Management covering class routines, subject allocation, GPA calculation, and result publishing.
- Generated **150+ academic, administrative, and financial reports.**
- Implemented Role-based Security & Access Control with scalable, modular system architecture.

Technologies : HTML5, CSS3, Bootstrap5, JavaScript, Django, AWS, MySQL

Resale AI (Freelance Hub BD Ltd, AI E-commerce Automation) **Live**

- Built multi-image upload pipeline with **6 AI-powered processing modes** — Physical Dimensions, Virtual Try-on, Mannequin, Background Removal, Model, and Image Diagram generation.
- Developed a dashboard to view, manage, and modify all AI-generated product data before export.
- Implemented Shopify-ready CSV generation and allowing product upload to client's Shopify store.
- Integrated Google Gemini API for intelligent image analysis and structured product data generation.

Technologies : Next.js, TypeScript, Google Gemini API, Express.js, Tailwind CSS, Shopify CSV, AWS S3

COURSES

Complete Web Development Course With Jhankar Mahbub **Jan 2024 - Jun 2024**
Programming Hero - **Certificate**

- Strong focus on front-end development and full-stack project implementation.

Complete Web Design Live Course: HTML, CSS, Javascript and jQuery **Apr 2023 - Aug 2023**
Eshikhon - **Certificate**

- Gaining expertise in pixel-perfect design with strong foundations in HTML, CSS, and JavaScript.

EDUCATION

Diploma in Mechanical Engineering **2022 - 2025**
Model Institute of Science and Technology (MIST)

- Hands-on training in workshop practices, and industrial technology.
- Practical experience in mechanical design, manufacturing, and maintenance.
